Product Renderings

3D renderings for packaging, web and tradeshow banners

Photoshop files are created with each material, reflection, graphic and shadow on its own layer.

JLH | BLACK+DECKER

Colors and levels can be adjusted for each material. Floor shadows and refections can be turned on or off.

JLH | BLACK+DECKER

Photoshop Smart Objects are applied to digital displays to allow easy replacement of graphics.

JLH | Russell Hobbs

Product models can be composited into lifestyle photos.

JLH | Breadman

ring

A virtual studio is created for each product model, keeping lighting and materials consistent in supporting images.

JLH | ring

Lighting product can have illumination on its own layer. Easy to turn on/off or adjust brightness.
